KNOW YOUR H₂O

WATER SAVING TIPS FOR BUSINESSES

Install faucet flow restrictors, high efficiency toilets and waterless urinals.

Fix leaks in indoor plumbing and outdoor sprinkler systems.

Require maintenance and landscape staff to possess water conservation expertise.

Support efforts to expand water recycling and storm water capture.

Purchase water-efficient HVAC and cooling systems.

Water landscaping in cooler morning or evening hours.

Use a broom instead of a hose to clean floors, driveways and sidewalks.

Participate in equipment rebate programs.

Install drip irrigation systems.

Landscape with California Native and other water-wise plants.

Increase employee awareness with conservation signage, incentives and awards.

Purchase high efficiency clothes and dish washers; run full loads only.
