

COMMUNITY MEETING FOR AFFORDABLE HOMES

We Want To Hear From You!

American Family Housing, a non-profit organization, invites you to hear about our proposal for high-quality affordable homes in the City of Alhambra.

This is an open house to present the proposed design concept. The design incorporates the extensive community input and site research we've received.

This event is the first in a series of ongoing interactive, community-driven processes and discussions that include community input on the project elements, design, and final approvals.
